A Confession. Congressman Tom Reed, of Maine, in his Fourth of July speech at Woodstock, Connecticut, made these remarks, in the nature of a confession: "Congress is never strong, except when the people are vigorously and vociferously behind it. If you want Congress to do even what it wants to do itself, you had better

what it wants to do itself, you had better help from outside all you know how."

The more familiarity one has with Congress and Congressmen, the more will he realise the truth and public value of Mr. Reed's confession. Congressmen, not lacking general intelligence and knowing the public needs as well as the people themselves, are lacking in course. They want to know that the people will sustain them. It may be that they fear the effect on the people of their own districts, which involves the realise the seals. Whitever is the tenure of their seats. Whatever is

A HEALTHFUL TOWN.

The Advantages of Fure Water and Fure Art—But Four Deaths in One Year to SistersVille—A Remarkable Showing.

To the Editor of the Intelligence.

Six: Among the towns that grace the

banks of the Ohio, none are more beau tiful or more picturesque than the town of Sistersville. The railway reach of fifty miles from Wheeling to Sistersville la not less attractive in picturesque

the ever changing shadows that fall where erstwhile the sun blazed in all his where cratwhile the sun blazed in all his glory, we arrive at Sistersville. Passing over the rustic foot bridge which spans the brooklet that flows between the wayside station and the town, we submit ourselves to the charm of the place and the solace that empowers us for renewed toll at the treadmill of city life; sleep well and dream of peace.

Not alone for its beauty is it famed. The healthfulness of the locality is unsurpassed.

The healthfulness of the locality is unsurpassed.

In regard to the latter the following facts were obtained from Dr. G. B. West upon the occasion of a recent visit:

Total number of deaths during the year ending June 30, 1889, 4. Rate of mortality in 1,000 of population per annum, a fraction under 0. The causes of death were cerebral softening, Bright's disease, consumption and whooping cough. The ages of decedents were 75, 67, 23 and 4 years respectively. It is proper to mention that the water used for potable purposes is derived from driven wells and cisterns. There are three public wells driven to the depth of 75 to 85 feet.

wells driven to the depth of the sefeet.

During the past year there has been
in the town but one single case of typhoid fever, and that was brought from
Bellaire, Ohio, last January. The patient
recovered.

Mild cases of diptheria appear occasionally. There has not been a case of
scarlet fever in the town or country
around in four years. The last time the
disease appeared in the town was upon
the occasion of a child sick of the disease being brought from Wheeling.
There were five cases, and one child affected died.

So far as the facts are known they agree with this verdict. Many engineers have visited the wrecked dam and, so far as we-know, have without exception given the opinion that the dam need not have broken if it had been well cared for.

The verdict of the Coroner's jury will encourage some of the sufferers to bring damage suits, and if these be successful, more will follow. Of course the liability of a Coroner's jury; but the disposition to sue may well be considerably strengthened by the verdict.

Let's lie Honest With Each Other.

Come, now. 'Fess Up. What is the one thing in this morning's paper that you are most eager to see and will read first? What is it you will want to know before to-morrow's paper goes to press and will expect to find on the bulletin board?

You don't want to admit it out loud, perhaps; but between ourselves, isn't it the news about to-day's big prize fight? Come, come—no use of dodging and pretending to be better than you are. There are thousands in the same boat, just as deager to know, just as desirous to let nobody know that they want to know.

Of course you deprecate these brutal exhibitions of brutal humanity. Of course you agree that no Governor should permit the fight to go on in his State if he can help it. All the time there is a secret hope—kept secret from yourself so far as you can so keep it—that no Governor will put himself too much out of the way to prevent the animals from having a go at each other. And if there is to be one of these brutal exhibitions, you want to know all about it as, soon as you can. The Pennsylvania Company Also Makes a Break in Bates.

Circago, July 7.—The Pennsylvania road has "seen the Baltimore & Ohlo and gone it one better." Friday it met the seven-cent reduction to Baltimore and that of eighteen cents to Philadelphia, and in addition made a twelve and one-half cent rate to Pittsburgh and Allegheny. Yesterday morning, at the meeting of the Chicago Committee of the Central Traffic Association, the Pennsylvania gave further notice that all of the above rates would go into effect July 10, that the New York basis of twenty-five cents would be cut to twenty cents, and that it would take shipments from St. Louis as well as Chicago at these rates.

These rates apply only on wheat and corn, but the bellet is prevalent among the members of the committee that the break will extand to all grain and flour. Especially is this so because the Pennsylvania has not only been so quick to meet, but likewise to extend the break

"Another wonderful discovery has been made and that too, by a lady in this county. Disease fastened its clutches upon her, and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking the first does that she slept all night, and with one bottle has been miraculously cured, Her name is Mrs. Luther Lutz."
